INTRODUCTION

This issue of the Andover Newton Bulletin, designated as the Alumni Directory, is a supplement of the General Alumni Catalogue of 1943. In order to make clear the material included in this Directory we wish to review the following historical background.

Andover Newton Theological School is an affiliation of Andover Theological Seminary, founded in 1807, the oldest Congregational theological seminary in America, and The Newton Theological Institution, founded in 1825, the oldest Baptist graduate theological school devoted exclusively to ministerial education in America.

In 1908 Andover Theological Seminary relocated in Cambridge on the Harvard campus until it affiliated with The Newton Theological Institution and moved to the Newton Centre campus in 1931. The two schools have operated as one since the date of affiliation.

This Directory gives certain essential information concerning alumni living in 1960 who have attended Andover Theological Seminary at Andover, Mass., or at Cambridge, Mass., or The Newton Theological Institution, prior to 1931, together with the students who have matriculated at the Andover Newton Theological School since these two historic schools came together. In accordance with the Alumni Association by-laws, those who have remained to receive one full semester of academic credit at Andover, Newton, or Andover Newton are officially members of the Andover Newton Alumni Association. It has been the aim to reflect in the following pages the name and class affiliation, birth and ordination dates, college, positions held since ordination, and the present known mailing address.

Living alumni are listed under the class year in four groupings; D. graduates; S.T.M. graduates; M.R.E. graduates; and then non-graduates with length of study at the school.

For cross reference and for convenience of the alumni and others who will use this Directory there is also included both a geographical and an alphabetical listing of living alumni. The geographical listing includes only those alumni whose addresses are known to be current. It is organized by state, city, and alphabetically within the city. The alphabetical listing includes all the names that appear in the Directory with the class designations. Although this is a Directory of living alumni we have listed in a special necrology those who are known to be deceased since the publishing of the last Directory in 1943.

Andover Newton Theological School and the Alumni Office wish to thank all the alumni who have completed and returned their Directory information forms. However, we realize that some of the information enclosed is incomplete and in some cases possibly incorrect, due to lack of replies. Now we would welcome information from all those who would supply either corrections or additional material, as it is anticipated that a supplement to this Directory at some future date will include this further information.
